ABOUT US

SOUTHERNGLOW
VENTURES LIMITED

SouthernGlow Ventures Limited (RC 465943) was incorporated in Nigeria as a Limited Liability Company in November 2002.

We offer a broad range of Engineering, Procurement and Construction services in the Oil & Gas sector, Government and various Corporate International/ National organizations.

We strive to achieve customer satisfaction at all times without eroding employees' sense of belonging and in the process, create an enabling environment for full favourable returns on investments.

It is our intention to promote the Nigeria Content initiative of the Federal Government of Nigeria in optimizing the use of local resources and materials in the execution of our projects.

We understand the need for sustainable development, and we are committed to the concept and use of local resources.

We engage and train Nigerian citizens in relevant disciplines that support the execution of our projects because we are convinced that the mix of our personnel and those of our partners working together would produce a remarkable transfer of technology over the next few years.

We have the expertise to take on the most challenging projects irrespective of location, terrain or topography; from analyzing the demands of the project to conceptual studies, mobilization, startup, finish and commissioning.

Our seasoned veterans (specialists with vast experience in Civil, Electrical, Mechanical, Facilities design, Vessels maintenance/drydock, and other specific facets of your project) are complemented by a highly trained cadre of young engineers.

SouthernGlow has completed several engineering related projects in the past and has the capacity to safely execute any given project. Our services include:

- Civil Engineering Works
- Greenfield Engineering Projects
- Integrated Operations and Maintenance (IOM)
- Technical Manpower Services
- Valve Maintenance
- Brown Field Engineering Projects
- Cathodic Protection Works
- Pipeline/Flow line repairs and installation
- Local and International procurement and supplies
- Vessels maintenance/drydock

PROJECT TEAM

IN-COUNTRY FABRICATION/ OPERATION/ LOGISTICS FACILITY

Operations Facility

SouthernGlow owns a Fabrication/Operations Facility Located at #1 SouthernGlow Avenue, by Dambo Drive, New Elenwo-Woji Link Road (De Young Road), Port Harcourt.

The facility resides on over 5,000sqm property excluding additional acquired areas yet to be surveyed.

Seated on this facility among others are:

1. **Warehouse**
 - Tool and Material Shelves
 - Spare Parts Storage
 - Mobile Crane
2. **Fabrication Yard**
 - Operations Office
 - Diesel Storage Area
 - Muster Point
3. **Waterfront Jetty**
 - of approximately 300meters, habouring full marine spreads.
4. **Heavy Duty Equipment Lay down Area**
 - Swamp Buggies
 - Excavators
 - Forklift
 - Self-loader
 - Lowbed
 - Welding Machines
 - High Pressure Compressors
5. **Pipeline Stacking Area**
6. **Material Storage & Handling Area**
7. **HSE**
8. **Utilities**
 - Public Power Plant
 - Power Generating Plant
 - Solar Power Grid System
9. **Security Facility**
 - Security Building
 - Sentry Area
 - CCTV Monitoring Area

IN-COUNTRY FABRICATION WORKS

OUR SERVICES

- Engineering
- Procurement, Supply & Equipment Leasing
- Pipeline/Flowline Installation & Maintenance
- Manpower Supply
- Welding and Fabrication
- Oil Spill Control/Bio Remediation

(A) GREEN FIELD ENGINEERING PROJECTS

Front End Engineering Design, Project Execution/Management and Commissioning.

(B) PIPELINE MAINTENANCE & REPAIR SERVICES

Pipeline Upgrade and Repairs - Modifications and other rehabilitation as per scope of work. It could be by clamping, reinforcement of weak sections, sectional replacement using varying techniques such as freezing, single or multiple hot-tap etc.

Valve maintenance - Periodic servicing of pipeline valves, repairs and replacement of defective pipeline valves.

Emergency Pipeline Repairs - By use of split sleeve clamps, emergency leaks or corroded portions of the pipes are replaced with an option of cofferdam/shoring construction where applicable.

Management of Oil Spill - Containment, recovery and disposal management

(C) INDUSTRIAL CLEANING:

These services include:

- Sewer, Saver Pits, Ponds, & Columns Dislodging
- Pipeline Descaling (Risers, Tubings, etc.)
- Industrial Tank Cleaning
- Related Services

(D) INTEGRATED OPERATIONS AND MAINTENANCE (IOM)

This involves the operation and maintenance of client oil and gas production facilities including all planning, documentation and management procedures required.

(E) TECHNICAL MANPOWER SERVICES

Provision of skilled Nigerian and Expatriate manpower fit to contribute effectively to operations in the Nigerian oil industry. Company has a large database of national and expatriate candidates and in addition has access to international agencies for specialized manpower needs.

(F) VALVE MAINTENANCE

Valve Maintenance Preventive and Corrective maintenance on various types of valves, viz.: Gate Valves, Rotary Valves, Plug Valves, Butterfly Valves, Globe Valves, Diaphragm Valves, Float Valves, etc. Activities include stem lubrication, change of faulty or worn parts, cleaning off corrosion products, re-packing and re-seating, disassembly and assembly, etc.

(G) INTERNATIONAL AND LOCAL PROCUREMENT AND SUPPLIES.

(H) CIVIL ENGINEERING WORKS: We are very vast in Construction activities with numerous completed projects to our credit, such as:

- (1) Roads
- (2) Shore protection
- (3) Bridges
- (4) Pilling
- (5) Buildings

PROCUREMENT, SUPPLY, AND LEASING

We source and supply manufactured materials/goods to any location for the Oil & Gas, Construction, Transport, Energy, Energy Saving and Renewable Energy industries.

Our services include sourcing, procurement, expediting, ordering, and inspection, consolidation, marking, tagging, packing and shipping to client destination both locally and internationally.

Our procurement and Supply team work closely with the relevant client project execution teams and vendors to ensure that all communication regarding the purchase and delivery of equipment is done in a timely manner and in accordance with the project schedule.

We understand the monetary implication of completing most complex projects and we appreciate the importance of furnishing a project with the appropriate equipment. We are capable of taking this cost concern off our clients through our Leasing services.

To be a **STRONG LEADER**
in the provision of Greenfield and
Brownfield services.

At SouthernGlow we offer a broad range of
Engineering, Procurement, Construction,
Installation and Project Management services in
the Oil & Gas Industry. We continually strive to
provide excellent, reliable services and deliver
quality work within the budget and schedule
constraints of our clients.

CLIENTS

QHSE

SOUTHERNGLOW VENTURES LIMITED is committed to providing Engineering Services, Procurement of Oilfield Equipment, Pipeline Fabrication / Construction, Installation and Upgrade of Onshore & Offshore Production Facilities, Process Facilities & Platforms, Pipeline Laying, Integrated, Operations & Maintenance, Civil / Mechanical /Electrical & Instrumentation Engineering, Project Management, QA/QC Services, Pressure Testing Services, Marine Logistics and Support, Heavy Equipment Leasing, Logistics Services, Corrosion Prevention & Control Services, Cathodic Protection & Coating Services and Technical Manpower Supply Services that exceeds the expectations of our customers in terms of quality products, timely delivery, industrial best practices, and effective cost.

To achieve this, **SOUTHERNGLOW** shall:

- ▶ Continually apply a quality management system that fully conforms to the requirements of ISO 9001: 2015.
- ▶ Comply with industry codes, standards, statutory, regulatory and interested parties' requirements.
- ▶ Consistently integrate safety techniques to deliver conforming and consistent customer services without compromising the environment.
- ▶ Take cognizance of our internal and external issues, invest in new technologies and training of personnel to achieve professional competence.
- ▶ Ensure continual improvement of the quality management system through adequate quality assurance monitoring, measurement, and analysis to maintain customer satisfaction.

This policy shall provide a framework for SOUTHERNGLOW Quality Objectives and shall be continually reviewed for suitability, adequacy, and effectiveness. All members of staff are hereby advised to adhere strictly to the requirements of this quality policy.

N engi D .

MD/CEO

SGVL-TM--POL-001

07/01/2024

SOUTHERNGLOW recognizes the importance of environment, health, safety and project quality at all times.

Preservation of these factors conforms to our continuing commitment to quality, health, safety and environment.

We adopt a Zero Loss Time Injury (LTI) philosophy with respect to these factors.

SAFETY

We believe that the “SAFEST WAY IS THE BEST WAY” and therefore accord high premium to safety in all our activities.

We continuously work to reduce risks and hazards to the environment and the employees' health and safety.

TEAM SPIRIT

We encourage team spirit by forging understanding amongst our workforce by way of providing basic work orientation, training and re-training opportunities within the workforce.

CUSTOMER SATISFACTION

Our customers are fundamental to the growth and success of our organization. We are therefore continually committed to providing our clients with the highest standard of quality services that will lead to and exceed desired customer satisfaction.
